About

Design & Engineering student at Politecnico di Milano with a Mechanical Engineering background. Passionate about blending precision with creativity, I specialize in UX/UI and product development. Currently leading design for Givit, I have experience in entrepreneurship-driven projects with a focus on sustainability. In 2025, I'll expand my expertise in IT Product Development at Aarhus University. Detail-oriented, tech-curious, and always eager to innovate.

Education

2025 - present

- IT Product Development, Aarhus University
Master's Degree in IT Product Development
Erasmus Experience

2023 - present

- Design&Engineering, Politecnico di Milano
Master's Degree in Design&Engineering

2020 - 2023

- Mechanical Engineering, Università degli Studi di Trieste
Bachelor's Degree in Industrial Engineering

Experience

- **Givit / Co-Founder & Designer** Remote

2023 - present

Collaborating with a team of six to develop Givit, an app for renting and offering products across various categories. Leading all design-related aspects, including creating graphics for advertising campaigns and designing the app prototype. Focused on UX/UI design to ensure a seamless, user-friendly experience and visually engaging interfaces.

- **Enactus Units / Designer** Trieste (TS)

2023

Participated in the Enactus program, an international organization connecting universities worldwide to develop entrepreneurial and sustainable projects for an annual competition. Contributed to the early-stage development of Givit, focusing entirely on the design aspects, including UX/UI and branding. Helped shape the project's vision of fostering sustainable consumption through product rentals.

Other activities

- **Midea / Workshop** Milano (MI)

2025

I participated in a design course at Politecnico di Milano in collaboration with Midea, a leading Chinese home appliance company. My project, focused on an innovative dishwasher technology, was selected by Midea for further development. As a result, I am now taking part in a workshop organized by Midea to further advance the project.

- **MarebluAdriatica / Beach Attendant** Jesolo (VE)

2019

- **Nice / Internship IT Support Specialist** Oderzo (TV)
